HARDY PORTFOLIOS

## About the Hardy Managed Portfolios

The investment objective is to grow the capital value of the portfolio whilst providing an income. The strategy is ESG integrated and considers Environmental, Social and Governance factors alongside traditional financial metrics. The Casterbridge Wealth 5 Income Strategy may be suitable for an investor with a time horizon of more than 5 years, and a medium tolerance for risk.

The Casterbridge Wealth 5 Income Strategy is a diversified portfolio, the largest asset allocation being to domestic and international equities as well as fixed interest. There is an allocation to "alternative investments" such as commercial property, private equity, commodities and absolute return strategies.

## Performance Information

This factsheet illustrates the holdings and performance returns for models held via our Direct Custody service with CSL/IBP Markets. The funds and performance held on other platforms may vary due to fund and share class availability. Please contact us should you require more information. The performance figures, accurate as at 10<sup>th</sup> October 2023, are calculated using Morningstar Direct and provided for illustrative purposes only and should not be viewed as the performance of a specific client account. All performance figures on this factsheet assume income is reinvested and are shown net of underlying fund charges. The methodology of calculating underlying costs of investments varies between fund houses making coherent reporting prohibitive. Casterbridge Wealth's management fees and any charges and fees applied by the platform and Professional Advisers will be charged in addition. Deduction of these fees would have reduced the performance shown. The Ongoing Charges Figure (OCF) for each strategy is calculated on a periodic basis using a weighted average of the most recently publicly available OCFs for the underlying investments as at the date of the factsheet.
